1.	Point 2 a (Page 38) - This RFP is not related to active directory. Active directory service implementation is mandatory or not?	Active directory is a KEY component that requires to integrate with the two appliances being delivered and therefore we require a vendor who has got experience in active directory deployment for business continuity.
2.	Point 3 (Page 38) - Is it mandatory that the solution should have been deployed in an ERP environment only? Can we include other site references?	This is not a mandatory requirement; however, the vendor will lose the stated marks if he does not meet the criteria.
3.	Point 11 (Page 41) - Is it mandatory for a project manager to have projects implementation experience in an ERP environment? Other implementation experience with the F5 and Cisco ISE is considered?	This is not a mandatory requirement; however, the vendor will lose the stated marks if he does not meet the criteria.
4.	Kindly advise your position regarding the IBM components.  IBM components are listed in the RFP but	The IBM components have been mentioned as part of background information. However, for accessibility and management of these components

	are not part of renewal in the outlined scope.	they require integration with ISE and Active Directory for authorization and authentication purposes. This is also the reason we have on bounded active directory requirement despite it not part of the procurement.
5.	JV clause states that JV partners must have Gold or Platinum vendor accreditations. Kindly amend to allow partners/bidders with Silver accreditations to JV with Gold and Platinum vendor accreditations	We have requested for the highest partnership of the proposed equipment i.e. Gold, Platinum or equivalent. This shall remain as stated in the bid document.

All the other terms and conditions remain the same.
