1. Key Entity Information and Management

(a) Background information

The Regional Centre on Groundwater Resources Education Training and Research was formed through Legal Notice No. 252 of 18th December 2015. This was the culmination of a Memorandum of Understanding signed between the Kenya Government and UNESCO to set up a Category 2 Centre in the country to spearhead research and education on groundwater resources. This is a State Corporation under the Ministry of Water, Sanitation and Irrigation. At the policy level, the Centre is headed by the Chairperson of the Board of Directors who is responsible for policy and strategic direction of the Centre

(b) Principal Activities

The principal activities of the Centre are to carry out research, capacity building and civic education/ public Awareness on groundwater resources occurrence and its status.

(c) Key Management

The Regional Centre on Groundwater Resources Education Training and Research's Day to day management is under the following key organs:

- 1. The Board of Management
- 2. Chief Executive Officer
- 3. Senior Management

(d) Fiduciary Management

The key management personnel who held office during the financial year ended 30th June 2022 and who had direct fiduciary responsibility were:

No.	Designation	Period	Name
1.	Chief Executive Officer	15/10/2019 to date	Mrs. Agnes W. Mbugua
2.	Head of Technical	14/7/2020 - 1/7/2022	Ms. Mirriam Chebungei
۷.	Tread of Technical	2/7/2022 to date	Mr Frank Mcharo
3.	Head of Supply Chain Management	1/7/2021 to date	Mr. Brian Letuati
4.	Head of Administration	14/6/2021-31/8/2022	Mr. Edward Nyabiba Mokweri
		01/09/2022 to date	Mr Benson Kimotho
5.	Head of Accounts and Finance	11/09/2018 - 1/2/2023	CPA. John Mbugua
J.	Tread of Accounts and Finance	2/2/2023 to date	CPA Fredrick Njuki
6.	Head of Internal Audit	15/01/2021-1/7/2022	CPA. James Areba
0.	Tread of Internal Addit	12/09/2022 to Date	CPA Janiffer Ndibaru

(e) Fiduciary Oversight Arrangements

RCGW's oversight responsibility is vested in the;

- 1) Board of Management which had 8 members.
- 2) Research, Education and Training Committee which had 4 members.
- 3) Finance and Administration Committee which had 3 members.
- 4) Audit and Risk Committee which had 4 members.

2. The Board of Directors

Ref	Directors	Details
	Ms. Rhoda Amimo Murwa Board Chairperson	Ms. Rhoda Murwa Igosangwa is a project and facilities management and supply chain management professional. She holds MBA from University of Nairobi, B.A Land Economics from University of Nairobi, Pg Dip from Institute of survey of Kenya, International diploma from international trade Centre. She is Board Chairperson, Regional Centre on Groundwater Resources Education Training and Research She has over 20 years of progressive experience in banking, academia, real estate, pensions fund and not for profit organizations among others. Rhoda is currently working as the Head of Facilities at Mpesa foundation. Prior to working at the Mpesa Foundation academy, she worked as an Administration Manager - projects, facilities and procurement at Consolidated Bank of Kenya Limited. Before joining Consolidated Bank, she worked at Daystar University in the same capacity. Overall, she has wide range of skills including training of trainers, project management, budgeting, facilities management, landscaping, real estate brokerage, supply chain management and agribusiness. Current membership: The Institute of Surveyors of Kenya, Kenya Institute of Surveyors of Kenya, Kenya Institute of Supply Chain Management and Women on Boards Network Young Men Christian Association. She is the Board Chairperson
2.		Geol. Elema Isacko Fila is a Practicing Geologist with over 31 years' experience in

Geol. Elema Isacko Fila
Independent Board Member
Chair Audit and Risk Committee of the
Board

Groundwater matters. He holds BSc. (Combined Hons) in applied and Environmental Geology from University of Plymouth (UK) and Diploma in Water Technology from KEWI.

He has worked in the northern Kenya and Turkana for the Ministry of Water and Irrigation being the Lead Expert in Groundwater exploration and drilling and community water supply.

For over 10 Years, he has worked as the water advisor of Catholic Diocese under MISEREOR a Germany funded water project. Mr Isacko also has experience in Oil and Gas exploration having served as stakeholder engagement manager for Tullow Oil Exploration company in Marsabit and Turkana.

He is an Independent Board Member

Engineer Gitobu was born in 1st July1955 and holds of B.Sc. Electrical Engineering from University of Nairobi, M. B.A Strategic Management from University of Nairobi and a member of IEEE.

He has 0ver 44 years' experience in Private and public sector.

Having served in the Board of Kenya Maritime Authority, Turkana University Council gives him vast experience in Board governance.

He is a Member of Trustee Street families' rehabilitation fund (SFRTF)
He is an Independent Board Member

3.

Eng. Wambutura Justus Gitobu
Independent Board Member
Chair Finance and Administration
Committee of the Board

4.

Mr. Kungu Waweru
Independent Board Member
Chair Audit and Risk Committee of the
Board

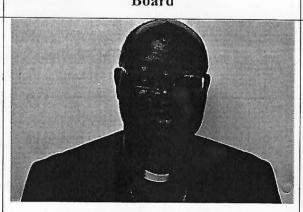

Mr. Kungu Waweru was born on 28th April 1952 and a holder of B.Sc. (General) from University of Nairobi.

He has over 40 years' experience in public and Private sector in which;

For 7 years he worked at Kenya Power and Lighting Company Limited as Computer programmer/system analyst, 4 years in Madison insurance Company as the Computer Manager, 4 years Sterling Winthrop as Management information Manager and finally has been self-employed for over 25 years.

He is an Independent Board Member

5.

Vainadu Titus Zakayo Ingana Board Member Representing the PS University Education and Research

Vainadu Titus Zakayo Ingana was born in 1966. He is a holder of both Bachelors and Masters Degrees from the University of Nairobi is a former United Nations Advisor to the Prime Minister of Timor Leste-Indonesia under UNDP.

He is currently serving as Head of Research, Science and technology (RST) in the Ministry of Education. He is the Kenyan Focal Point Officer on Science,

Technology and Development (ST& D) to the Commission for Science, Technology and Development (CSTD), UNCTAD, Geneva. His task is to spearhead the development of Kenya's Issues Papers on various themes as requested for annually by CSTD/UNCTAD.

Mr. Ingana also consults in amongst others; leadership and management training, Human resource management and development. He has authored twenty (29) Books in various fields and is also the founder of Firmword Church worldwide. This is 5-fold ministry Church that is headquartered in Kenya. He is the Alternate of the PS University

Education and Research.

6.

Mr. Feisal Mohammed
Board Member Representing the CS,
National Treasury

Mr. Feisal Mohammed is a Public Finance management specialist at the National Treasury, with an interest in public policy and public finance with over 10 years' experience in the area. He is a holder of MSc. Political Economy, Merit, London school of Economics and BSc. (Hons) Financial Mathematics 1st Class.

Currently, he's assistant director financial and sectoral affairs at the National Treasury where he is the deputy head Global fund unit. Prior to this, was senior fiscal Analyst at the Office of Controller of Budget.

Mr Feisal has been a Research assistant at Strathmore University Governance Centre and London School of Economics, Centre for Economic Performance.

He is a Member of Institute Certified Investment and Financial Analysts (ICIFA) He is the Alternate of the **CS**, National Treasury.

7.

Geol. Gichangi Wotuku

Board Member Representing the PS,
Ministry of Water, Sanitation and
Irrigation

Geol. Gichangi Wotuku was born in 12th DECEMBER 1964 and a hold of B.Sc. Geology from the University of Nairobi. Currently, he is the Deputy Director, Groundwater Resources Division in the Department of National Water Resources, Ministry of Water and Sanitation & Irrigation and also the Project Co-ordinator, Horn of Africa Groundwater for Resilience Project. He has over 26 years' experience Water and Sanitation & Irrigation and working as a Geologist in the Public Sector with extensive knowledge in Policy formulation on Water Resources Management, Groundwater Data Management, Hydrogeological Surveys, Drilling & Equipping of boreholes and Borehole water infrastructure development. He is the Alternate of the Principal Secretary,

Ministry of Water and Sanitation & Irrigation.

Regional Centre on Groundwater Resources Education Training & Research in Eastern Africa Annual Report and Financial Statements

for the year ended June 30, 2022.

8.

CS. James Musee Nduna Corporate Secretary

James Musee Nduna is an Advocate of the High Court of Kenya admitted to the Bar 28 years ago. He is certified Secretary of 27 years standing since 1996. He holds an LLB from the University of Nairobi and an MBA from USIU-A. among other academic and professional qualifications James is a career civil servant of over 20 years' experience in the public sector having served as a Magistrate, Corporation Secretary and Deputy Registrar of companies.

He is currently a Chief State Counsel in the State Law Office deployed to the Ministry of water as the Director Legal Services.

10.

Geol. Agnes W. Mbugua Chief Executive officer, Regional Centre on Groundwater Resources **Education Training and Research**

Geol. Agnes Mbugua holds an MSc.in Hydrogeology and Groundwater Management and BSc.in Geology from UON. She is a member of Geological Society of Kenya, Geological Registration Board and Licensed Qualified Water Resource Professional (Hydrogeologist). She is the Chief Executive officer, Regional Centre on Groundwater Resources Education Training and Research having worked in the Water sector in the last 25 years in various capacities. Previously headed the Research and Data Division as a Chief Water Research Officer, coordinated several groundwater mapping/research programmes both at National and Regional level including assessment of groundwater potential, borehole site investigations in various locations in the country. Held the position of the UNESCO desk officer at the Ministry of Water, Technical contact person at the office of UNESCO Special Envoy for Water in Africa (The 3rd President of Republic of Kenya), Task Force Member in

3. Management Team

	Management	Details
1.	Geol. Agnes W. Mbugua Chief Executive officer	Geol. Agnes W. Mbugua holds an MSc.in Hydrogeology and Groundwater Management and BSc.in Geology from UON. She is a member of Geological Society of Kenya, Geological Registration Board and Licensed Qualified Water Resource Professional (Hydrogeologist). She is the Chief Executive officer, Regional Centre on Groundwater Resources Education Training and Research having worked in the Water sector in the last 24 years in various capacities.
2.		Ag. Corporate Secretary
	Mr. James Musee Nduna LLB and MBA	
3.	CPA Fredrick Njuki	CPA Fredrick Njuki Masters in Business Management, MBA Finance, BSc. H&I Management, CPA-K and an active member of Institute of Certified Public Accountants of Kenya ICPAK. He is in charge of Finance Department having over 20 years' experience in the field
	MBA Finance, BSc. H&I Management, CPA-K and an	Person Production of the Control of

for the year ended June 30, 2022.

4.

Frank Mcharo
BSc. Earth Science, with IT

Mr Frank Mcharo BSc. Earth Science, with IT.
He is in charge of the technical department.
He is in charge of n charge of Core Mandate,
Deployed from the Ministry of Water & Sanitation
and Irrigation

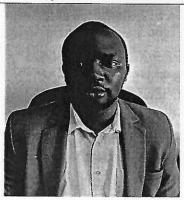

5.

CPA Janiffer G. Ndibaru
MSc Finance Ongoing,
Bachelor of commerce
Finance, CPA-K and an active
member of Institute of
Certified Public Accountants
of Kenya ICPAK and IIAK

CPA Janiffer G. Ndibaru is currently pursuing MSc Finance. She holds Bachelors of commerce in Finance, CPA-K and an active member of Institute of Certified Public Accountants of Kenya ICPAK and Institute of Internal Auditors of Kenya IIAK She is in charge of Internal Audit Department having over 15 years' experience in the field

7.

Mr. Brian Letuati Kasura
In Charge of Supply Chain
Management

Mr. Brian Letuati Kasura holds a Bachelors of Business Administration major in Procurement, Supply chain and Logistics Management, Diploma in Business Management, CIPS and an active member of Chartered Institute of Procurement and Supply (MCIPS-UK)

He is in charge of Procurement and Supply chain management operations having experience in the field.

Mr. Benson Kimotho Wanjiku
Master of Public Policy, BSc
Environmental Planning and
Management, NEMA Lead
Expert and a Member of
Environmental Institute of
Kenya

Mr. Benson Kimotho Wanjiku holds Master of Public Policy, BSc Environmental Planning and Management option. NEMA Lead Expert and a Member of Environmental Institute of Kenya. He is in charge of administration having over 10 years' experience in the field.

In Charge of Corporate Services

Regional Centre on Groundwater Resources Education Training & Research in Eastern Africa for the year ended June 30, 2022.

4. Chairperson's Statement

It gives me great pleasure to present Centre's Financial Report and Financial Superior the year ending 30th June 2022. The Centre had a good performance for an organization of the control of the control of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for an organization of the centre had a good performance for a five years old. We made a milestone despite having a limited budget and the COVID Pandemic challenges.

The Board and its organs

The board of Management was fully constituted with its 3 (three) Board Committees as follows:

- Research, Education and Training Committee
- Finance and Administration Committee
- Audit and Risk Committee

Corporate Performance

During the period under review the Centre was able to achieve the following.

- a) The Centre maintained the banks account for Recurrent and Development Expenditure opened with authority from the National Treasury. This afforded the Centre a level of autonomy since it manages its own expenditure albeit with a bit of support from the ministry.
- b) The Centre had a Budget of Ksh 74 Million initially but only 34Million Recurrent Budget and 20Million development Budget was disbursed by the Ministry. Additionally, 9 Million was disbursed under special request thus the Ministry transferred a total of Ksh 62.9 million to the Centre. The same was eventually released to the Centre in monthly tranches. With this support the Centre was able to achieve some of its targets.
- c) Participation in Mid Term Expenditure Framework Planning meetings organized by the Ministry of Finance to prepare for the fourth Medium Term Plan (MTP). This was to ensure the Centre was captured in the Government Financial Planning Cycle for 2022/2023 financial year.
- d) Engagement of temporary staff on an interim basis awaiting recruitment of permanent staff as the budget grows.
- e) Mentorship of deployed interns from Public Service (PSC) in keeping with the Government policy of exposing youths to practical work experience.
- f) The Centre implemented its fourth Performance Contract successfully by adhering to the set PC guideline under cycle 18.

Acknowledgement

I would like to extend my appreciation to the Cabinet Secretary and Principal Secretary from the parent Ministry for their guidance and support. I would also want to commend the Board of Directors, CEO and the Centre's staff for their dedicated service which enabled the Centre to operate despite of many challenges.

Ms. Rhoda Amimo Murwa

Chairperson, Board of Management

Date: 13/3/2023

5. Report of the Chief Executive Officer

I present the Regional Centre on Groundwater Resources Education Training & Research in Eastern Africa Report and Financial Statements for the FY 2021/2022. During this period, the Centre faired reasonably well as disbursements from the Government was received although sometimes, late. The biggest challenge that was faced by the Centre was Budgetary constrain triggered by development budget cut and low staffing levels. I am pleased to report that the Centre Management handled these challenges well through strict planning and prudent utilization of the available resources namely, Human, Systems, Financial and Physical Facilities; this was supported by financial and technical backstopping of the Parent Ministry.

Financial Results

The Centre during the reporting period experienced not limited to below challenges:

• Inadequate funding:

During the reporting year, the Centre received 33.9 million recurrent ,20.0 million Development and 9.0 million under special request from the Ministry amounting to 62.9 million against a final revised Budget of Kshs 83.0 million. With this disbursement, the Centre utilized Kshs 67.5 million and due to non-disbursement of total development budget, we were unable to fully implement its core mandate programmes. An illustration of Centre's performance has been shown in **Table 1.0**

The Centre needs enough space and resources to operationalize its research, training and public awareness. Facilities such as geophysical equipment, drilling rigs, test pumping units, field vehicles, GIS and Remote Sensing Laboratory, Data Base Equipment, Isotope Hydrology and Hydro-chemical laboratories. This is hampered by lack of funds.

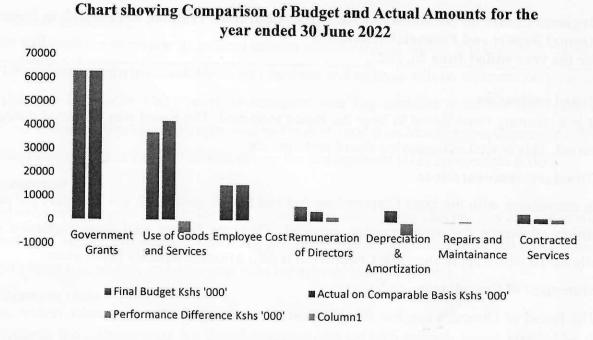

Table 1.0

• Inadequate staffing:

Currently the CEO and 4 permanent and pensionable staff are the only substantive staff working with 10 staff deployed from the Parent Ministry, 4 interns and 4 contracted staff. The Centre has planned for recruitment of more staff in the Financial Year 2022-23. This will enable the Centre to become fully operational and minimize some of the shortcomings noted in the management level.

Future Outlook

In the short time that the Centre has been in the existence, we take cognizant of the progressive allocation of recurrent budget and development budget during the FY 2021/2022. Moving forward, this

progressive allocation will enhance human resources capacity and enhance the initiated capital projects. However, allocation for implementation of programmes and development/improvement of research which is crucial for effective fulfilment of the Centre's mandate was not addressed as expected.

Board evaluation

It is a statutory requirement to have the Board evaluated. The Board was evaluated during the review period. This is vital in improving Board performance.

Directors' remunerations

In accordance with the State Corporations Act and SCAC guidelines, the Directors are paid a taxable sitting allowance for every meeting attended. They are further paid accommodation and mileage allowance where applicable. The Chairperson is paid a taxable monthly honorarium.

Statement of Compliance

The Board of Directors confirm that the Centre has throughout the year under review complied with statutory and regulatory requirements and that the Centre has been managed in accordance with the principles of corporate governance.

Internal control and risk management

The Directors are responsible for reviewing the effectiveness of the Centre's system of internal control which is designed to provide reasonable but not absolute assurance regarding the safeguarding of assets against unauthorized use or disposition and maintenance of proper accounting records and reliability of financial information used within the business or for publication. These controls are designed to manage rather than to eliminate the risk of failure to achieve business objectives due to circumstances which may be reasonably foreseen and can only provide reasonable but not absolute assurance against material misstatement or loss.

Organization structure

The Centre has an organization structure which clearly defines lines of authority and responsibility. The professionalism and competence of staff will be maintained through a rigorous program of training and performance appraisal. Training plans will be developed to ensure staff acquire and maintain relevant skills to ensure professional management of the Centre.

Strategic Plan

The Centre developed a five-year strategic plan. The strategic plan will form the basis for the development of annual budgets and work plans while maintaining strategic focus to ensure realization of the Centre's long-term goals.

Internal control framework

The Centre will continue to review its internal control mechanisms to ensure it maintains a strong and effective internal control environment. Business processes and controls will be reviewed on an ongoing basis. A risk base audit plan which provides assurance over key business processes and operational financial risks facing the Centre will be approved by the Audit and Risk Management Committee. Where risks are identified the Audit Committee will ensure the Management takes appropriate action.

Risk Management

The Centre will have a structure to help identify, assess and manage risks. This process was not available during the review period. The Management team will review all the identified risks and update the risk register and ensure that all new and emerging risks are appropriately dealt with.

The Management team

The management team implements the Board decisions and policies through action plans. The team meets regularly to review these action plans to ensure that they are effectively and efficiently achieved. These action plans are in the form of Annual work plans, budgets, procurement plans and performance contracts.

8. Management Discussion and Analysis

The Centre has relied on grants from the Government to support its activities together with in-kind support from International Atomic Energy Agency (IAEA). The Regional Centre's mandate is to spearhead research, training, and education (Public Awareness) on groundwater resources in the region. During the period under review, the Board guided the Centre in carrying out programmes geared towards implementing the Centre's FY 2021-2022 Performance Contract (PC) activities drawn from Strategic Plan (20182022). Some of the key achievements includes:

a) A Comprehensive Water Sector Assessment towards the Sustainable Management of Water Resources Implemented

- In the year under review, the Centre finalized the National Hydrological plan which
 include the approach to implement the Hydrological gaps identified through a needs
 assessment carried out involving key water sector stakeholders. The gaps to be
 implemented are: Data and Hydrological Information; human capacity; and technology
 and infrastructural gaps
- The Centre also developed 2 (two) Isotope Hydrology Modules for professionals. These
 modules will be used as procedures/manuals to train professionals on application of
 Nuclear Science applications in groundwater resources assessments by use of Isotope
 Hydrology Techniques.

b) Groundwater Assessed & Developed and Water Quality Determined

- The Centre conducted two (2) hydrological hydrogeological, hydro chemical and environmental assessments in Athi catchment area (Dandora, Ruai, Oloitoktok). These exercises involved data analysis and processing to identify Groundwater Potential Recharge Zones (GWPZs). The Groundwater Potential Recharge Zones were identified, a map was produced and a technical report developed.
- Policy briefs on MAR pilot project in Athi Basin was developed

c) Capacity on Managed Aquifer Recharge Built

- The Centre conducted both National and Regional training on application of GIS and Remote sensing on identification of MAR zones.
- The National training was a 5 days' workshop held in Naivasha where the Centre partnered with Water Cap and invited other stakeholders from national and County government and representative in various relevant technical professional.
- The Regional training was conducted through a virtual platform by a resource person from United States Geological Survey (USGS) and about 100 groundwater professionals from the African states attended the training.

d) Groundwater Database and Knowledge Management System Established

 One database desk computer has been installed with required software, and uploaded with raw and processed data and information from the different groundwater research projects

e) Trainers of Trainers Trained

• The Centre conducted one (1) groundwater survey equipment ie PQWT on equipment operation, data analysis and interpretation. Six (6) groundwater professionals were trained as ToTs

f) Resource Mobilization Strategy Developed

The has developed a final Resource mobilization document through a stakeholder's engagement process.

g) Science, Technology and Innovation (STI) Mainstreamed

• The Centre undertook research in various catchment (Rift valley and Athi). Four (4) technical staff were involved in training on use of GWENS system (innovated by USGS) and disseminated research findings/recommendations in various platforms that include; USGS, USAID and RCGW seminars, first IAEA webinar featuring Careers for Women in Isotope Hydrology as well as during public awareness campaigns in both Lake Victoria North and South basins.

h) Research Proposals/Concept Papers for Partnership and Resource Mobilization Developed

- The Centre developed its project proposals' components in the four (4) key projects under the guidance of the Parent Ministry namely:
 - i. Kenya Towns Sustainable Water Supply and Sanitation Project (KTSWSSP)
 - ii. Water and Sanitation Project in Selected North Eastern Counties and Coastal Region (WSDP)
 - iii. Horn of Africa Groundwater for Resilience Project to be funded by World Bank.
 - iv. Gender Equality and Climate Resilience under the Africa Climate Change Fund (ACCF) which was submitted to AfDB.

Major risks facing the Centre

Operational risk: - staff shortage

Finance risk: - limited resources and inadequate funding from the government and partners

9. Environmental and Sustainability Reporting

The Regional Centre on Groundwater Resources Education Training and Research exists to transform lives. This is our purpose; the driving force behind everything we do. It's what guides us to deliver our strategy, putting the customer/Citizen first, delivering relevant services, and improving operational excellence. Below is an outline of the Centre's policies and activities that promote sustainability.

i) Sustainability strategy and profile

The Centre is regional in its scope of coverage and it is one of its kind. The top management is keen in ensuring that sustainable strategies are put in place to edge against unfavorable Social-political and macroeconomic volatility that may have negative impact to Centre's operation and also existence. Sustainable priorities, reference to international best practices is observed.

ii) Environmental performance

Outline clearly, environmental policy guiding the organisation, provide evidence of the policy. Outline successes, shortcomings, efforts to manage biodiversity, waste management policy and efforts to reduce environmental impact of the organisation's products.

iii) Employee welfare

Give account of the policies guiding the hiring process and whether they take into account the gender ratio, whether they take in stakeholder engagements and how often they are improved. Explain efforts made in improving skills and managing careers, appraisal and reward systems. The organisation should also disclose their policy on safety and compliance with Occupational Safety and Health Act of 2007, (OSHA.

iv) Market place practices-

The Centre has made efforts to:

a) Responsible competition practice.

The Centre gives fair chance to all their Suppliers regardless of their race, ethnicity or Disability. Market surveys are always done before settling on Suppliers.

b) Responsible Supply chain and supplier relations

The Centre maintains a cordial relationship with its suppliers through fair competition in awarding of jobs as stipulated in Public Procurement and Disposal Acts and other relevant regulations. Prompt payment is made upon invoicing.

c) Responsible marketing and advertisement

Through the Centers social Media pages, some research knowledge has been disseminated to the public thus creating awareness.

d) Product stewardship

Clients research information is ethically and properly kept; Information is only shared to third party upon authorization.

v) Corporate Social Responsibility / Community Engagements

In the year under review, the Centre engaged with communities through public awareness forums in the Lake Victoria North and South Catchment Areas. The objective was to create awareness on surface water and groundwater interaction as well as obtain the groundwater challenges in the region. The Centre also participated in World Water Day celebrations in Kitui and Turkana where the Centre also engaged in tree planting activities and exhibitions aimed at highlighting the role of the organization in sustainable management of groundwater resources in the Country.

10. Report of The Directors

The Directors submitted their report together with the audited financial statements for the year ended June 30, 2022 which show the state of the Centre's affairs.

i) Principal activities

The principal activity of the Board is to guide the Regional Centre in fulfilling its mandate of education, training and research on groundwater resources.

ii) Results

The results of the Centre for the year ended June 30, 2022 are set out on page 1.

iii) Directors

The members of the Board Directors who served during the year are shown in the table below. During

S/N	Name	Organization	year are shown in the table	-
1	Ms. Rhoda Amimo Murwa	Independent	Appointment Date	Designation
2	Mr. Cyrus Mwaniki		06/10/2021	Chairpersor

Surplus remission iv)

In accordance with Regulation 219 (2) of the Public Financial Management (National Government) Regulations, regulatory entities shall remit into Consolidated Fund, ninety per centum of its surplus funds reported in the audited financial statements after the end of each financial year. The Centre did not make any surplus during the year (FY 2021-22 Ksh Nil) and hence no remittance to the Consolidated Fund.

Auditors v)

The Auditor General is responsible for the statutory audit of the Regional Centre on Groundwater Resources Education, Training and Research in accordance with Article 229 of the Constitution of Kenya and the Public Audit Act 2015 for the year/period ended June 30, 2022.

Order of the Board

CS. James Musee Nduna

Ag. Corporate Secretary

Regional Centre on Groundwater

Resources Education Training and Research

Date: 13/03/2023

11. Statement of Directors' Responsibilities

Section 81 of the Public Finance Management Act, 2012 require the Directors to prepare financial statements which give a true and fair view of the state of affairs of the Centre at the end of the financial year/period and the operating results for that year/period. The Directors are also required to ensure that the Organization keeps proper accounting records which disclose with reasonable accuracy the financial position of the Entity. The Directors are also responsible for safeguarding the assets of the Centre.

The Directors are responsible for the preparation and presentation of the Centre's financial statements, which give a true and fair view of the state of affairs of the Centre for and as at the end of the financial year (period) ended on June 30, 2022. This responsibility includes: (i)Maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii)Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Entity; (iii)Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv)Safeguarding the assets of the Centre; (v)Selecting and applying appropriate accounting policies; and (vi)Making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the Centre's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012. The Directors are of the opinion that the Centre's financial statements give a true and fair view of the state of Centre's transactions during the financial year ended June 30, 2022, and of the Centre's financial position as at that date.

The Directors further confirms the completeness of the accounting records maintained for the Centre, which have been relied upon in the preparation of the Centre's financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Regional Centre on Groundwater Resources will not remain a going concern for at least the next twelve months from the date of this statemen

18 December, 2015 which established the Centre. The under-staffing may hinder effective delivery of services .

In the circumstances, Management was in breach of the law.

2. Unauthorized Expenditure

The statement of comparison of budget and actual amounts reflects final expenditure budget and actual on comparable basis of Kshs.63,000,000 and Kshs.69,759,902 respectively resulting in an over-expenditure of Kshs.6,759,902 or 11% of the budgeted amount. Management did not provide evidence of the Board's approval for the excess expenditure. In addition, no supplementary approval was provided for audit review for the over expenditure contrary to Section 40(5) of the Public Finance Management (National Government) Regulations, 2015 which states that Accounting Officers may seek supplementary budget if the expenditure cannot be met by budget reallocation under Section 43 of the Act.

In the circumstances, Management was in breach of the law.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements, plan, and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, except for the matters described in the Basis for Conclusion on Effectiveness of Internal Controls, Risk Management and Governance section of my report, I confirm that, nothing else has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

1. Lack of Information and Communication Technology (ICT) Policy

Review of the Centre's information technology systems revealed that the Centre did not have an approved IT policy for governance and management of its ICT resources. In addition, there is no ICT steering committee in place to assist in the development of ICT policy framework to enable the Centre to realize long-term ICT strategic goals. Lack of an approved IT policy may result in an unclear direction regarding maintenance of information security across the organization and safeguarding the Centre's ICT assets.

Further, without a sound and approved framework, users do not have any rules and procedures to follow in order to minimize risk of errors, fraud and the loss of data confidentiality, integrity and availability.

In the circumstances, existence of effective ICT controls could not be confirmed.

2. Lack of Risk Management Policy and Strategy

The Centre Management had not put in place risk management policy, strategies, and risk register to mitigate against risk. It was, therefore, not clear how the management manages risk exposures. This is contrary to the provisions of Regulation 165(1) of the Public Finance Management (National Government) Regulations, 2015 which requires an Accounting Officer of National Government entity to develop risk management strategies which include fraud prevention mechanisms and a system of risk management and internal control that build robust business operations.

In the circumstances, existence of effective risk management measures could not be confirmed.

3. Failure to Maintain a Fuel Register

During the year under review, the Centre did not maintain a fuel register on fuel drawn. The Centre also has one motor vehicle but sometimes, the Management borrow vehicles from the parent Ministry or other Government entities to carry out their duties.

In the circumstances, it was not possible to confirm controls in place on fuel drawn by different vehicles used by the Centre during the financial year under review.

4. Lack of Board Evaluation

During the year under review, the Board did not conduct an annual evaluation to appraise its performance. This is contrary to guiding principle Number.17 of the Mwongozo: Code of Governance which states that "the Board will conduct an annual evaluation to appraise its performance. Further it states that, this evaluation will be carried out in accordance with the Board evaluation tool. The Board evaluation is intended to provide an opportunity for Board members to identify strengths, collective skills gaps and individual areas of improvement. The Board will also review the performance of each committee against the agreed terms of reference. It also requires that the Board evaluates the performance of the CEO and the Corporation Secretary.

In addition, Governance Practice No.1.12(4 & 6) of the Mwongozo: Code of Governance stipulates that the annual evaluation should result in a report with recommendations for implementation and that the re-appointment for a subsequent term for any Board Member or CEO shall be based on a favorable evaluation as spelt out in the evaluation tool.

In the circumstances, Management was in breach of the Law.

5. Non-Execution of the Governance Audit

During the year under review, the Management did not subject the Organization to an annual governance audit, contrary to Governance Practice 1.13(1) of the Mwongozo: Code of Governance which states that the Board in consultation with the Oversight Office, should ensure that it subjects the Organization to an annual governance audit by a member regulated by the Institute of Certified Public Secretaries of Kenya (ICPSK) and accredited for that purpose.

Further, guiding principle No.19 of the Mwongozo: Code of Governance prescribes that the Board should ensure that a governance audit of the Organization is undertaken on an annual basis. The purpose of the governance audit is to ensure that the Organization conforms to the highest standards of good governance. The governance audit should cover the following areas: leadership and strategic management, transparency and disclosure, compliance with laws and regulations, communication with stakeholders, Board independence and governance, Board system and procedures, consistent shareholder and stakeholders' value enhancement; and corporate social responsibility and investment.

In the circumstances, Management was in breach of the Law.

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal controls, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and the Board of Directors

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Centre's ability to continue to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Centre or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are

in compliance with the authorities which govern them, and that public resources are applied in an effective way.

The Board of Directors is responsible for overseeing the Centre's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to overall governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal controls in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal controls would not necessarily disclose all matters in the internal controls that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal controls components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal controls may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the Centre's policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Centre's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Centre to cease to continue to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Centre to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathungu, CBS AUDITOR-GENERAL

Nairobi

19 April, 2023

Surplus for the period				(906,652,906)			

Explanations.

- The variance resulted from an accrued audit fees for FY 2016/17 and Budget cuts whereby only half of the approved development budget of Kshs 40 million was received.
 - The variance resulted from early exit of some Board Members on expiry of their term leading to underutilization.
 - This too resulted from Budget cuts and inadequate allocation due to limited recurrent budget being a new agency.
- The variance arose due to proration of prepaid insurance expense to subsequent financial year.

18. Notes to the Financial Statements

1. General information

The Regional Centre on Groundwater Resource Education Training and Research is established by and derives its authority and accountability from public finance management Act. The entity is wholly owned by the Government of Kenya and is domiciled in Kenya. The entity's Principal activity is to carry out research, capacity building and civic education on groundwater resources.

2. Statement of compliance and basis of preparation

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant and equipment, marketable securities and financial instruments at fair value, impaired assets at their estimated recoverable amounts and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying RCGW'S accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 5 of these financial statements.

The financial statements have been prepared and presented in Kenya Shillings, which is the functional and reporting currency of the Centre.

The financial statements have been prepared in accordance with the PFM Act, the State Corporations Act and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

3. Adoption of New and Revised Standards

New and amended standards and interpretations in issue effective in the year ended 30 June 2022.
 IPSASB deferred the application date of standards from 1st January 2022 owing to Covid 19.
 This was done to provide entities with time to effectively apply the standards. The deferral was set for 1st January 2023.

ii. New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2022.

Standard	Effective date and impact:
IPSAS 41:	Applicable: 1st January 2023:
Financial	The objective of IPSAS 41 is to establish principles for the

	present relevant and useful information to users of financial
	statements for their assessment of the amounts, timing and
	uncertainty of an Entity's future cash flows.
bounded and all began on	IPSAS 41 provides users of financial statements with more
miles promise and	useful information than IPSAS 29, by:
haden also the skiller	• Applying a single classification and measurement model for
to sensition out and	financial assets that considers the characteristics of the asset's
	cash flows and the objective for which the asset is held;
A service of the partition of the service of the se	• Applying a single forward-looking expected credit loss model
	that is applicable to all financial instruments subject to
	impairment testing; and
TO THE PERSON NAMED IN PARTY OF THE PERSON NA	• Applying an improved hedge accounting model that broadens
	the hedging arrangements in scope of the guidance. The model
	develops a strong link between an Entity's risk management
	strategies and the accounting treatment for instruments held as
	part of the risk management strategy.
IPSAS 42:	Applicable: 1st January 2023
Social	The objective of this Standard is to improve the relevance,
Benefits	faithful representativeness and comparability of the information
	that a reporting Entity provides in its financial statements about
	social benefits. The information provided should help users of
mind the purel par	the financial statements and general-purpose financial reports
	assess:
	(a) The nature of such social benefits provided by the Entity.
	(b) The key features of the operation of those social benefit
	schemes; and
Mills Asset District	(c) The impact of such social benefits provided on the Entity's
	financial performance, financial position and cash flows.
 morphismania (4) 	much and the contract maller module is a second of the contract of the contrac

	Amendments	Applicable: 1st January 2023:
	to Other	a) Amendments to IPSAS 5, to update the guidance related
la Ju	IPSAS	to the components of borrowing costs which were
	resulting from	inadvertently omitted when IPSAS 41 was issued.
	IPSAS 41,	b) Amendments to IPSAS 30, regarding illustrative
	Financial	examples on hedging and credit risk which were
	Instruments	inadvertently omitted when IPSAS 41 was issued.
		c) Amendments to IPSAS 30, to update the guidance for
		accounting for financial guarantee contracts which were inadvertently omitted when IPSAS 41 was issued.
		Amendments to IPSAS 33, to update the guidance on
		classifying financial instruments on initial adoption of accrual
		basis IPSAS which were inadvertently omitted when IPSAS 41 was issued.
	Other	Applicable 1st January 2023
	improvements	IPSAS 22 Disclosure of Financial Information about the
	to IPSAS	General Government Sector.
		Amendments to refer to the latest System of National Accounts (SNA 2008).
		IPSAS 39: Employee Benefits
		Now deletes the term composite social security benefits as it is no longer defined in IPSAS.
		IPSAS 29: Financial instruments: Recognition and Measurement
		Standard no longer included in the 2021 IPSAS handbook as it is now superseded by IPSAS 41 which is applicable from 1st January 2023.
	IPSAS 43	Applicable 1st January 2025
Tape		The standard sets out the principles for the recognition,
		measurement, presentation, and disclosure of leases. The
		objective is to ensure that lessees and lessors provide relevant
		information in a manner that faithfully represents those
		transactions. This information gives a basis for users of
		financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an
		Entity.

The new standard requires entities to recognize, measure and present information on right of use assets and lease liabilities.

IPSAS 44:	Applicable 1st January 2025
Non- Current	The Standard requires,
Assets Held	Assets that meet the criteria to be classified as held for sale to
for Sale and	be measured at the lower of carrying amount and fair value less
Discontinued	costs to sell and the depreciation of such assets to cease and:
Operations	Assets that meet the criteria to be classified as held for sale to
	be presented separately in the statement of financial position
	and the results of discontinued operations to be presented
	separately in the statement of financial performance.

iii. Early adoption of standards

The entity did not early - adopt any new or amended standards in year 2020/2021.

- 4. Summary of significant accounting policies
- a) Revenue recognition
- i. Revenue from non-exchange transactions

Transfers from other government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Entity and can be measured reliably. Recurrent grants are recognized in the statement of comprehensive income. Development/capital grants are recognized in the statement of financial position and realised in the statement of comprehensive income over the useful life of the assets that has been acquired using such funds.

financial position and realised in the statement of comprehensive income over the useful life of the assets that have been acquired using such funds.

b) Budget information

The original budget for FY 2021-2022 was approved by the National Assembly on 10th June 2020. Subsequent revisions or additional appropriations were made to the approved budget in accordance with specific approvals from the appropriate authorities. The additional appropriations are added to the original budget by the Entity upon receiving the respective approvals in order to conclude the final budget.

The Entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts.

In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget.

Notes to the Financial Statements (Continued) Summary of Significant Accounting Policies (Continued)

Budget information (continued)

A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under section 13 of these financial statements.

c) Taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the area where the Entity operates and generates taxable income. Current income tax relating to items recognized directly in net assets is recognized in net assets and not in the statement of financial performance. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

d) Property, plant and equipment

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

a) Research and development costs

The Entity expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the Entity can demonstrate:

- i) The technical feasibility of completing the asset so that the asset will be available for use or sale
- ii) Its intention to complete and its ability to use or sell the asset

Notes to the Financial Statements (Continued) Summary of Significant Accounting Policies (Continued)

Loans and borrowing

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or deficit when the liabilities are derecognized as well as through the effective interest method amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

1. Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition. Costs incurred in bringing each product to its present location and conditions are accounted for, as follows:

- i) Raw materials: purchase cost using the weighted average cost method.
- ii) Finished goods and work in progress: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

Inventories (Continued)

After initial recognition, inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost.

Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Centre.

2. Provisions

Provisions are recognized when the Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Notes to the Financial Statements (Continued) Summary of Significant Accounting Policies (Continued)

Where the Entity expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

3. Contingent liabilities

The Entity does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

4. Contingent assets

The Entity does not recognize a contingent asset but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs

5. Nature and purpose of reserves

The Entity creates and maintains reserves in terms of specific requirements.

6. Changes in accounting policies and estimates

The Entity recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

7. Employee benefits

Retirement benefit plans

The Entity provides retirement benefits for its employees. Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable.

Notes to the Financial Statements (Continued)

Summary of Significant Accounting Policies (Continued)

Defined benefit plans are post-employment benefit plans other than defined-contribution plans. The defined benefit funds are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on proportional basis to all participating employers. The contributions and lump sum payments reduce the post-employment benefit obligation.

8. Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

9. Borrowing costs

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment. Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

The Entity regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa. Members of key management are regarded as related parties and comprise the directors, the CEO and senior managers.

10. Service concession arrangements

The Entity analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, the Entity recognizes that asset when, and only when, it controls or regulates the services the operator must provide together with the asset, to whom it must provide them, and at what price.

Notes to the Financial Statements (Continued) Summary of Significant Accounting Policies (Continued)

In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise – any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the Entity also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

11. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorized public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

12. Comparative figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

13. Subsequent events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2021.

5. Significant Judgments and Sources of Estimation Uncertainty

The preparation of the Entity's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period.

However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Notes to the Financial Statements (Continued)
Summary of Significant Accounting Policies (Continued)

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur. IPSAS 1.140

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- a) The condition of the asset based on the assessment of experts employed by the Entity
- b) The nature of the asset, its susceptibility and adaptability to changes in technology and processes.
- c) The nature of the processes in which the asset is deployed.
- d) Availability of funding to replace the asset.
- e) Changes in the market in relation to the asset

Provisions

Provisions were raised and management determined an estimate based on the information available. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

20. Financial Risk Management

The entity's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The entity's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimize the potential adverse effect of such risks on its performance by setting acceptable levels of risk. The entity does not hedge any risks and has in place policies to ensure that credit is only extended to customers with an established credit history.

The entity's financial risk management objectives and policies are detailed below:

i) Credit risk

The entity has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as trade and other receivables and available-for-sale financial investments. Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external assessment in accordance with limits set by the directors. The amounts presented in the statement of financial position are net of

The carrying amount of financial assets recorded in the financial statements representing the Entity's maximum exposure to credit risk without taking account of the value of any collateral obtained is made up as follows:

Notes to the Financial Statements (Continued)

	Total amount	Fully performing	Past due	Impaired	
	Kshs	Kshs	Kshs	Kshs	
As at 30 June 2022					
Bank balances	7,354,439	-	-	-	
Total	7,354,439	-	-	-	
As at 30 June 2021					
Bank balances	9,233,326	-	<u> </u>		
Total	9,233,326		-	-	

The customers under the fully performing category are paying their debts as they continue trading. The credit risk associated with these receivables is minimal and the allowance for uncollectible amounts that the Entity has recognized in the financial statements is considered adequate to cover any potentially irrecoverable amounts. The board of directors sets the Entity's credit policies and objectives and lays down parameters within which the various aspects of credit risk management are operated.

ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the entity's directors, who have built an appropriate liquidity risk management framework for the management of the entity's short, medium and long-term funding and liquidity management requirements. The entity manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the entity under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

iii) Market risk

The Centre has put in place an internal audit function to assist it in assessing the risk faced by the organization on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the Centre's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Overall responsibility for managing market risk rests with the Audit and Risk Management Committee

Notes to the Financial Statements (Continued)

The Centre's Finance Department is responsible for the development of detailed risk management policies (subject to review and approval by Audit and Risk Management Committee) and for the day-to-day implementation of those policies. There has been no change to the entity's exposure to market risks or the manner in which it manages and measures the risk.

a) Foreign currency risk

The entity has transactional currency exposures. Such exposure arises through purchases of goods and services that are done in currencies other than the local currency. Invoices denominated in foreign currencies are paid after 30 days from the date of the invoice and conversion at the time of payment is done using the prevailing exchange rate.

The entity manages foreign exchange risk form future commercial transactions and recognized assets and liabilities by projecting for expected sales proceeds and matching the same with expected payments.

b) Interest rate risk

Interest rate risk is the risk that the Entity's financial condition may be adversely affected as a result of changes in interest rate levels. The Entity's interest rate risk arises from bank deposits. This exposes the Entity to cash flow interest rate risk. The interest rate risk exposure arises mainly from interest rate movements on the Entity's deposits.

Management of interest rate risk

To manage the interest rate risk, management has endeavored to bank with institutions that offer favorable interest rates.

Sensitivity analysis

The entity analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. This involves determining the impact on profit or loss of defined rate shifts. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year. Using the end of the year figures, the sensitivity analysis indicates the impact on the statement of comprehensive income if current floating interest rates increase/decrease by one percentage point as a decrease/increase.

Fair value of financial assets and liabilities

a) Financial instruments measured at fair value.

Determination of fair value and fair values hierarchy

IPSAS 30 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Centre's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities. This
 level includes listed equity securities and debt instruments on exchanges.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes equity investments and debt instruments with significant unobservable components. This hierarchy requires the use of observable market data when available. The Centre considers relevant and observable market prices in its valuations where possible.

iv) Capital Risk Management

The objective of the entity's capital risk management is to safeguard the entity's ability to continue as a going concern. The entity capital structure comprises of the following funds:

	2021-2022	2020-2021
	Kshs	Kshs
Revaluation reserve	· · · · · · · · · · · · · · · · · · ·	=
Retained earnings	18,486,960	25,246,866

Less: cash and bank balances	(7,354,439)	(9,233,326)
Net debt/(excess cash and cash equivalents)		
Gearing	0%	0%

21. Related Party Disclosures

Nature of related party relationships

Entities and other parties related to the entity include those parties who have ability to exercise control or exercise significant influence over its operating and financial decisions. Related parties include management personnel, their associates and close family members.

Government of Kenya

The Government of Kenya is the principal shareholder of the Regional Centre on Groundwater Resources, holding 100% of the Centre's equity interest. The Government of Kenya has provided full guarantees to all long-term lenders of the entity, both domestic and external.

Other related parties include:

- i) The Parent Ministry
- ii) County Governments
- iii) Key management.
- iv) Board of directors

22. Events after the Reporting Period

There were no material adjusting and non-adjusting events after the reporting period.

23. Ultimate and Holding Entity

The entity is a State Corporation/ or a Semi- Autonomous Government Agency under the Ministry of Water Sanitation & Irrigation Its ultimate parent is the Government of Kenya.

24. Currency

The financial statements are presented in Kenya Shillings (Kshs).

Project title	Project Number	Donor	Period/ duration	Donor commitment	Separate donor reporting required as per the donor agreement (Yes/No)	Consolidated in these financial statements (Yes/No)
1. Evaluation of surface and Ground water interaction using Isotope technology	1109116000	-	4 Years	-	No	Yes
2. Establish Aluminum residue in drinking water	1109116200	-	4 Years	-	No	Yes

Status of Projects completion

	Project	Total project Cost	Total expended to date	Completion % to date	Budget	Actual	Sources of funds
1	Evaluation of surface and Groundwater interaction using Isotope technology	400M	17.5M	4%	20M	10M	Gok
2	Establish Aluminum residue in drinking water	300M	20M	5.5%	20M	10M	Gok

APPENDIX II: Inter-Entity Transfers

-	TRAINING AND RESEARCH Prophylogyn of Transford from the State Department of Western LG 11 11									
	Breakdown of Transfers from the State Department of Water and Sanitation									
***	FY 2021/2022									
a.	Recurrent Grants	Bank Statement Date	Amount (KShs)	The Amounts relate to						
	٧.	11/08/2021	2,833,333	2021/2022						
		07/09/2021	2,833.333	2021/2022						
		29/09/2021	2,833,333	2021/2022						
		14/10/2021	4,000,000	2021/2022						
		04/11/2021	2,833,333	2021/2022						
		02/12/2021	2,833,333	2021/2022						
		10/01/2022	2,833,333	2021/2022						
		07/02/2022	2,833,333	2021/2022						
		02/03/2022	2,833,333	2021/2022						
		04/04/2022	2,833,333	2021/2022						
		09/05/2022	2,833,333	2021/2022						
		07/06/2022	2,833,333	2021/2022						
		15/06/2022	5,000,000	2021/2022						
		30/06/2022	2,833,333	2021/2022						
		Total	42,999,996							
b.	Development Grants	Bank Statement Date	Amount (KShs)	The Amounts relate to						
		26/08/2021	10,000,000	2021/2022						
		01/11/2021	10,000,000	2021/2022						
		Total	20,000,000							

The above amounts have been communicated to and reconciled with the parent Ministry
